The Bucket 25 is suitable for all types of paint and lacquer rollers up to and including 25 cm (9 inches) wide. A handy, sturdy bucket with an integrated angled roller surface that extends a bit above the bucket. This eliminates the need for a separate roller grid and still allows you to hang the roller nice and high! And no splashing or dried-on paint particles. Use the liners for quick cleanup or color changes. The tray stays clean and ready for the next job. Use the lid to store a roller in the paint, saving time and money.
