The Roll and Go Tray 25 is a handy powerhouse for any accurate painting job from doors, floors and stairs to walls and even murals with paint and lacquer rollers up to and including 25 cm (9 inches) wide. Less chance of streaking, good access to contents, no splashing and a spacious second compartment where you can put away a brush or roller or carry a sponge or cloth. The angled roller surface ensures perfect distribution of paint on the roller and excess paint automatically sinks back into the deep reservoir that holds a full gallon of paint. You also easily park your roller handle on the raised edge at the top of the roller surface. The matching liners keep the container clean and ensure that you can change the contents at lightning speed, which is why these containers are also widely used by painters who work with many different colors.
