The Roll and Go XL is the most stable paint tray available. It has two compartments: one for rolling paint and one for your other materials or to put your roller with extension handle upright without the tray tipping over. The Roll and Go XL is so stable that you can easily slide it across the room, then you don't even have to bend down. Indispensable for any big job. Lasts very long thanks to the liners that also ensure that the bin stays clean. Very fast work so!
